Professional Work Experience:

Pyramid Consulting, Noida Senior Executive Resourcing

Sep 2025 – Present

- Managed the full recruitment lifecycle for enterprise clients including Global Payments, Delta Airlines, Inspire Brands, LexisNexis, and Nexus Circular across W2, C2C, and FTE hiring models.

- Worked extensively within VMS/MSP environments including Magnit, AgileOne, Workday VNDLY, and Simplify VMS to manage requisitions, candidate submissions, compliance, and onboarding workflows.
- Built and maintained proactive talent pipelines for niche and high-volume IT positions across AI/ML, Cloud, Data Engineering, Cybersecurity, Enterprise Applications, ERP, Product and Software Engineering.
- Executed high-volume outbound sourcing using LinkedIn Recruiter, advanced Boolean searches, Google X-Ray, Dice, Tech-Fetch, GitHub and internal ATS databases to identify and engage passive talent.
- Maintained strong submission-to-interview and interview-to-offer conversion ratios by implementing targeted sourcing strategies and continuous pipeline optimization.
- Partnered closely with hiring managers, recruiters, MSP partners, and vendor teams to understand technical requirements, refine sourcing strategies, and improve candidate quality.
- Conducted comprehensive candidate screening, including technical evaluation, domain alignment, visa/work authorization validation, employment verification, and long-term stability assessment.
- Led rate negotiations, offer discussions, and onboarding while ensuring adherence to client budgets, compliance requirements, background checks, and documentation standards.
- Provided market intelligence, salary benchmarking, and recruitment metrics (submissions, interviews, offers, and TAT) to stakeholders, supporting data-driven hiring decisions and SLA achievement.
- Leveraged AI tools including ChatGPT and Claude to generate advanced Boolean strings, personalize outreach, summarize candidate profiles, and improve sourcing productivity.

Ark Solutions, Noida

Dec 2024 – Aug 2025

Senior Technical Recruiter

- Recruited technical talent for State Government agencies and Direct Clients across Cloud, DevOps, Data Engineering, Cybersecurity, SAP, ERP, and Software Development positions.
- Developed targeted sourcing strategies for both high-volume and niche technical hiring using LinkedIn Recruiter, Boolean searches, Google X-Ray, referrals, and market mapping.
- Built and maintained proactive talent pipelines to support current requisitions and future hiring demands.
- Engaged passive candidates through personalized LinkedIn InMails and email campaigns, improving recruiter-ready candidate availability.
- Conducted technical pre-screening to evaluate technology alignment, domain expertise, communication skills, and overall candidate fit.
- Partnered with hiring managers to understand technical requirements and refine sourcing strategies for difficult-to-fill positions.
- Ensured compliance with State hiring policies, background verification requirements, security clearance processes, and onboarding documentation.
- Managed interview scheduling, offer coordination, contract documentation, and rate discussions throughout the hiring lifecycle.
- Provided market intelligence, salary benchmarking, and talent availability insights to support hiring decisions.
- Maintained candidate data, submission tracking, and recruitment activities within ATS while ensuring data accuracy.
- Built long-term relationships with clients and candidates, resulting in improved candidate engagement and pipeline retention.
- Stayed current on emerging technologies and evolving IT hiring trends to strengthen sourcing effectiveness.

Primus Global Services, Noida

Jan 2024 – Dec 2024

Senior Technical Recruiter

- Managed full-cycle recruitment for both IT and Non-IT positions, supporting contract, contract-to-hire, and full-time hiring requirements.
- Worked closely with vendors and account managers to gather detailed requirement insights, clarify hiring expectations, and align sourcing strategies.
- Built and maintained candidate pipelines through job boards, LinkedIn, referrals, and internal ATS databases to support ongoing hiring needs.
- Screened resumes and conducted preliminary technical and behavioral evaluations to identify qualified candidates.
- Coordinated interview scheduling, collected interview feedback, and maintained consistent communication with candidates throughout the hiring process.
- Negotiated compensation, employment terms, and joining timelines while ensuring alignment with client budgets.
- Mentored and supported a team of 2 to 3 recruiters by reviewing candidate quality, sharing sourcing best practices, and assisting with challenging requirements.
- Maintained accurate ATS records, recruitment metrics, and candidate documentation to support reporting and hiring visibility.

- Partnered with HR and onboarding teams to ensure smooth offer acceptance, documentation, and candidate onboarding.

Keasis Inc., Noida

Feb 2023 – Jan 2024

Senior Technical Recruiter

- Supported the growth of an emerging IT staffing firm by leading end-to-end recruitment and prioritizing hiring activities to meet client delivery timelines and staffing goals.
- Led and mentored a team of 4 to 5 recruiters by assigning requirements, reviewing submissions, and improving overall team productivity.
- Partnered with vendor managers and technical stakeholders to gather role requirements and define candidate selection criteria.
- Performed technical pre-screening, resume evaluation, and resume formatting to align candidate profiles with client expectations.
- Coordinated interview logistics, tracked interview progress, and ensured timely communication between clients and candidates.
- Assisted with offer discussions, documentation, and onboarding activities to ensure successful candidate placement.
- Built strong client relationships through consistent delivery, resulting in repeat business opportunities and increased hiring trust.

NLB Services, Noida

Feb 2021- Feb 2023

Technical Recruiter

- Delivered full-cycle recruitment for technical positions, supporting Direct Client hiring across contract and full-time requirements.
- Built candidate pipelines for niche and high-demand technologies through Boolean searches, Google X-Ray, job boards, and referrals.
- Screened resumes and identified qualified candidates based on technical skills, work authorization, and client requirements.
- Maintained regular communication with clients to understand hiring priorities and provide candidate pipeline updates.
- Ensured compliance with employment guidelines and verified work authorization for W2, Green Card, and H1B candidates.
- Negotiated compensation and employment terms while balancing candidate expectations with client budgets.
- Customized and formatted candidate resumes according to client and VMS submission standards.
- Tracked recruitment activities, hiring metrics, and candidate progress within the ATS to support timely submissions.
- Conducted post-placement follow-ups with consultants and clients to ensure successful onboarding and long-term engagement.

NR Consulting Service, Noida

Aug 2019 - Jan 2021

Technical Recruiter

- Contributed to the growth of a fast-growing IT staffing firm by supporting end-to-end technical recruitment and building foundational recruiting processes across W2 hiring engagements.
- Prepared consultants for client interviews by providing role-specific guidance, interview preparation, and offer negotiation support.
- Gathered hiring requirements from account managers and translated them into effective sourcing strategies for open positions.
- Identified candidates through job boards, internal databases, referrals, and internet research to build qualified talent pools.
- Managed the recruitment lifecycle from candidate sourcing and resume evaluation to interview coordination and successful placement.
- Performed resume reviews, technical pre-screening, reference checks, and candidate qualification assessments.
- Coordinated interview scheduling, offer documentation, contract generation, and onboarding activities.
- Built and maintained strong relationships with candidates, ensuring consistent communication throughout the hiring process.
- Maintained accurate ATS records and recruitment documentation to support submission tracking and reporting.
